-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Pursuant to the directives of the response filed 7/28/03, claims 40 and 46 have been amended, and claim 49 cancelled. Claims 1-48 and 50-52 remain pending. Claims 40, 46 and 47 are examined in this Office action; claims 1-39, 41-45, 48, 50-52 remain withdrawn from consideration.

The following is a quotation of the first paragraph of 35 U.S.C. §112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it in such full, clear, concise and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 40, 46, 47 are rejected under 35 U.S.C. §112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 40 and 46 recite that the compound which exhibits AAT-like activity “comprises” CE-2072. This is not supported by the specification as filed. The claims also recite that the compound which exhibits AAT-like activity comprises a “derivative” of CE-2072. This is also not supported by the specification as filed. Applicants are requested to point to the location in the text where they believe that descriptive support can be found.

Claims 40, 46, 47 are rejected under 35 U.S.C. §112 second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of claims 40 and 46 recite that a compound can exhibit an activity which is somehow "like" that of α 1-antitrypsin. This renders the claims indefinite as to the manner in which and the extent to which, the compound must resemble α 1-antitrypsin.

No claim is allowed.
